PROTEST HIGH SCHOOL CHANGE

Bear River Valley People Are Opposed to Selling of Building Site

BRIGHAM CITY, April 24.—Protest against any proposed action on the part of the board of education of Boxelder county to sell land midway between Tremonton and Garland, which was recently purchased as a site for a new high school building, was voiced at a mass meeting of Bear River Valley people. A resolution was adopted at the meeting which requested that the new school building be erected as first planned and a committee was appointed to take such steps as is deemed necessary to procure the building.

It was outlined in the resolution that the Boxelder county board of education has persistently opposed the wishes of the Bear River people in not supplying their needs in regard to high school facilities and it was made necessary for the people to appeal to the state legislature to enact a law requiring the board to erect and equip a high school in the vicinity.

Purchase Site. According to the resolution the board finally purchased a school site midway between Tremonton and Garland, these towns being two miles apart. A school bond election was called to vote bonds in the sum of \$150,000 and in the meantime much discussion arose among the board members, some opposing the building on the proposed site. It is alleged by the Bear River people that some of the board members were anxious that the bonds carry in order that other improvements might be completed and promised certain voters that the new high school would not be located on the site previously selected between Tremonton and Garland.

Split on Location. The bonds carried by a big majority and now the board is divided on the location. Members P. M. Hansen of Bear River City, and John H. Shumway of Garland, contend that the new high school should be erected where they promised it would be erected when the ground was purchased. Members T. H. Wheatley of Honeyville, Seelye of Rosette and Jesse W. Hoopes of Brigham, voted to rescind their former action in the matter and are now offering the school site for sale and ask both Tremonton and Garland to make propositions to the board for the new school building, and the town making the best proposition will get it.

To this the people of Tremonton and Garland resent in strong terms, as indicated in the following resolution adopted at a meeting held at Garland April 20:

Resolution. Whereas, the board of education, Boxelder school district has seen fit to persistently oppose the wishes of the people of the Bear River Valley, in not supplying their needs in the way of high school facilities, making it necessary for the people to appeal to the legislature to enact a law requiring the said board to erect and equip a high school building in this vicinity; and

Whereas, they have recently solicited the support of the Bear River Valley people in carrying a bond election for \$150,000 under the pretense that \$75,000 or \$80,000 would be used in erecting a building on a site previously bought and paid for by the said board, which site is midway between the cities of Tremonton and Garland, and which site is entirely satisfactory to the people concerned, and who would be benefited by it, and the people to whom the said board of education look for patronage, and upon whom the success of the school depends; and

Whereas, the said board has, in

Try This if You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly; and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Doctor Issues Warning And Tells How to Stop Tobacco Habit

New York: Dr. Connor, formerly of Johns Hopkins Hospital, says: I am often asked if I know anything to stop the tobacco habit and I always recommend Nicotol, which I always prescribed with great success. Nicotol contains no habit-forming drugs, is absolutely harmless and produces astonishing results in a very short time. The use of tobacco saps the vitality, vitiates the vigor and ambition of the slave who is enthralled by its seductive effects. It undermines the health and leaves the victim an easy prey to general debility, throat and lung troubles, nervousness, insomnia, heart trouble, kidney trouble, headache, tongue and lip cancer and even blindness. Physicians the world over often trace the start of the above diseases and many others to nicotine poisoning.

FOIL BURGLARS LOOTING STORE

Few Thousand Dollars Worth of Goods Piled up When Watchman Appears

BOUNTIFUL, April 24.—After an exciting automobile chase from Bountiful to St. Joseph early this morning, two burglars who were surprised while looting the J. C. Penny store here, slipped the pursuing officers and made their getaway. They abandoned the small car in which they were riding and disappeared into the darkness.

The men were surprised at work in the store at 2 o'clock this morning by W. A. Fisher, night watchman. Fisher entered the store after hearing a noise and was suddenly confronted by the men in the darkness. Guns were thrust against his side and he was compelled to keep silent under threat of death.

While the men were holding Fisher in the store, Night Watchman J. H. Lawson entered and shouted an alarm. The burglars started toward the rear of the store with Fisher and called out that they would shoot him if Lawson fired at them.

Keeping Fisher between them and the watchman, the men backed out of the rear entrance to the store and ran. Shots were fired at them but they missed in the darkness. The men jumped into an automobile and fled from the town with the officers in pursuit, in another car. A chase then took place to St. Joseph, but the men jumped from their car in the darkness and disappeared.

Investigation later showed that the burglars had piled several thousand dollars worth of silks and clothing on the floor, but they were compelled to abandon it in making escape.

NEGRO ACCUSED OF KILLING HIS WIFE

POCATELLO, Ida., April 24.—Clarence Stoglin, colored, shot and killed his wife here Thursday night, say the police, firing four shots at her during a quarrel in which she is said to have told him "he was not her kind of a man."

Stoglin only arrived here on Thursday from Ogden, where it is said he had been staying for a week. The guilty man delivered himself over to the police immediately after the shooting. He is an ex-convict man with a good record.

POSTPONE SURVEY OF UTAH SERVICE MEN

SALT LAKE, April 24.—Announcement of the postponement of the committee meeting at which plans for a survey of Utah returned service men for the American Legion would have been presented, were made today. The meeting will be held next week when all members of the committee will be present.

The committee is made up of the following: R. J. Shields, A. E. Harvey, Arch M. Thuman, Earl J. Glavin, John M. Hayes, Mrs. W. C. Jennings.

Resolving, that an appeal be made to the mayors and city councils, and Commercial clubs of Tremonton and Garland, that they, in the interest of the people whom they represent, and serve, shall not make any inducements whatsoever, to the board of education to erect the said building within the limits of either city, and, be it further resolved, that five or more representative citizens be appointed a committee to take such steps as will be necessary to prosecute the matter to the end that ultimately a high school building will be erected on the site formerly bought and paid for by the board and now owned by the Boxelder school district, and to this committee we pledge our moral and financial support; and, be it further

Resolved, that a copy of these resolutions be sent to each of the newspapers of this county.

Done this 20th day of April, 1920, at Garland, Utah.

Attest:
N. E. IVERSON,
Chairman.
W. F. PETERSON,
Secretary.

LOGAN OUTLINES IMPROVEMENTS

"Progress Platform" of 21 Planks Prepared by Chamber of Commerce

LOGAN, April 24.—The big "Progress Platform" of the Logan Chamber of Commerce, with twenty-one planks for the improvement of the community, has just been issued by Secretary M. R. Hovey of that chamber, following approval of the platform by the board of directors and the chamber as a whole. This platform was drafted by the officers of the chamber upon a basis of suggestions furnished by the membership of the club. It covers nearly every phase of community life. In order that it be a live platform, either standing or special committees have been appointed to look after every plank.

A summary of the complete platform is as follows:

Planks for Program of Work for Chamber of Commerce for 1920.

Logan Municipal Light Plant: The improvement and enlargement of the Logan municipal light plant.

Parking and Sidewalks, Etc.: A movement to be made to have all sidewalks parked where the curb and gutter has been constructed. Conduct a campaign for clean-up movement, and have all unsightly fences removed. Clean up back of business blocks.

Sewer Extensions: Have the sewer extended, especially in that part of the city commonly known as the Island. For sanitary and other reasons, this is very necessary.

Auto Camping Grounds: Provide for auto camping grounds as near in the city as possible. Such a place with the proper location and convenience will be an added inducement for tourists to remain in our city.

Telephone Service: Keep a check on the telephone service and see that the public as well as the company gets a square deal.

Home Building: Encourage the building of more homes to take care of the people who desire to locate here and the many students who desire to attend our schools.

Improvement to Soldiers' Memorial Park: Lend the city all the aid possible in acquiring the necessary property and improving the site of a suitable soldiers' memorial park.

Extension of Street Paving and Removal of Poles from Center of Streets: Work for the extension of the street paving in the city, especially up either Fourth or Fifth North to the Agricultural college. Also for the removal of all poles from the center of the streets in order to get the proper grades for the roads and to make the streets more beautiful.

Improvement of Cemetery: Work for a landscape plan for the cemetery where there will be uniformity and the lots and roads will be kept in good condition. There is no more beautiful or better site in the country for a cemetery than we have at Logan. An auditorium should be provided where memorial services may be held. Work for good roads and walks leading to and in the cemetery.

Public Playground: Make the public playground a bigger movement. It was a great success last year. Help to secure more equipment and make sure that the play is supervised.

New Theater: Encourage the erection of a new theater commensurate with the city and county. It is needed badly.

Chautauqua and Lyceum: Co-operate with local colleges in bringing good lecture numbers here. Have the chamber take a stand as to whether a chautauqua shall receive a guarantee in order to bring it to Logan.

Bad Checks: Make war against the writing of bad checks.

Tie Yards: Arrange for suitable tie yards.

Roads: Early completion of state highway work for better roads all over the country. Good roads from one town to another is one of the most necessary things before us. Work for the early completion of the Logan canyon road.

Athletics: Work for baseball, public tennis courts, golf course, and handball court. Establish a business men's class in physical education at the Logan high school, or some other convenient place.

Drainage and Irrigation Projects: Co-operate with the Cache county farm bureau and Agricultural college in drainage and irrigation projects in the valley.

Advertising: Advertise Logan and the county with an attractive folder. Also Logan canyon and other canyons in the county that will attract tourists.

Mail Orders: Attack the mail order system. Conduct a "buy at home" campaign.

More School Funds: Work for constitutional amendment which provides an equal amount throughout the state for each school child for education.

BUTTER GENERALLY MEETS REQUIREMENTS

SALT LAKE, April 24.—But one sample of butter out of more than 70 examined by State Chemist Herman Harms for the state dairy and food department has been found to contain an overweight of water to meet requirements of the law. The surplus water was so slight in this sample that Commissioner Walter M. Boyden of the department expects to remedy the fault by giving notice to the producers without further action.

TWO CONVICTED OF ROBBERY IN PRISON

BRIGHAM CITY, April 24.—Herbert Middleton and Martin Nelson were taken to the state prison this week by Sheriff John Welling. The men were found guilty of burglary and started their 20-year sentences this week. They robbed the Fishburn store at Tremonton, it is alleged, and were arrested in Salt Lake. They admitted their crime, says the sheriff.

Organs, \$10 up, on terms.

STATE RESTS IN OBLIZALO CASE

Motion for Directed Verdict of Not Guilty Is Denied

SALT LAKE, April 24.—The state this morning rested its case against Nick Oblizalo, charged with murder of Mark Laus, who was killed in a ravine in the mouth of Parley's canyon, following the testimony of Herman Harms, state chemist, that by chemical and microscopic analysis he found blood stains on the trousers claimed to have been worn by the defendant on the day of the murder.

Immediately following the conclusion of the state's case the defense moved for a directed verdict of not guilty. The motion was denied.

A slight sensation developed this morning when for a few minutes it looked as though the trousers referred to by Mr. Harms had been tampered with since he had made the examination. In the absence of the jury, Judge Harold M. Stephens, in whose division of the court the case is on trial, questioned Mr. Harms concerning the matter. The chemist, on cross-examination, stated that he did not recall placing two pins in positions which they were found to occupy. His testimony was that he placed pins to indicate the locations of blood stains and that two pins in the trousers this morning were not indicative of blood stains.

Witness Changes Mind

The court contended that if the pins had been changed inadvertently any person under suspicion should be vindicated, but if they had been changed purposely, the responsible parties should be prosecuted. Judge Stephens ordered an investigation by the district attorney, whereupon the witness was confronted with the transcript of his testimony at the preliminary hearing. At that time he said he placed pins to indicate stains which he had examined and the locations corresponded exactly with the location of the pins at the present time. Mr. Harms admitted that he was mistaken, preferring to rely on his previous testimony since it was given at a time much closer to the examination and when his memory as to what he had done was probably better. The true facts of the situation were then placed before the jury after the court had decided that it was entirely cleared up.

GROOM IS CONVICTED OF MANSLAUGHTER

COUER D'ALENE, Ida., April 24.—Henry C. Voss, who shot and killed Glenn Miles, a member of a charivari party that visited him the night of his wedding was convicted here yesterday of involuntary manslaughter.
